

1 First Section

This is the main theorem restated:

定理 1.1 (Main theorem). *We have*

$$1 + 2 = 3. \tag{1.2}$$

2 Second Section

This is a dummy theorem to check the equation counter:

定理 2.1. *We have*

$$0 \neq 1. \tag{2.2}$$

Restated here:

定理 1.1 (Main theorem). *We have*

$$1 + 2 = 3. \tag{1.2}$$

This is another dummy equation:

$$1 \neq 2. \tag{2.3}$$
